Divine Geometry (Utopia On Paper)

Opening & Christmas Party

17 December 6.00pm - 9.00pm

Exhibition Dates

16 December 2011 ~ 21 January 2012

In 1999 master printer Basil Hall introduced the art of etching to the most senior Lawmen of the Sandover region, Utopia. The images, designs and use of colour have sacred meanings attached to the myths owned by those elders. They tell a story as ancient as the land. These men and women felt the need to share what was normally hidden, in the hope it might be preserved for their children and future generations.

Join us for the exhibition of this unique collection, for the first time in Queensland.
