Fossil Light

Opening 6.30pm - 9.30pm

*on **Friday 25th February***

25th February ~ 8th April 2011

Leading art academic Dr Donal Fitzpatrick presents 'Fossil Light' a series of recent paintings in which he contemplates the relation of vision to duration, presenting '*a geologic experience of time as an island of gravity.*'

These large, luminous paintings present a sombre yet beautiful and strangely elusive landscape of the imagination. Dark, fleeting and indistinct, they tempt the viewer to delve deeper into deciphering the complexities hidden just beneath the painted surface.

Currently the Head of the School of Design and Art at Curtin University in Perth, Dr Fitzpatrick was born in Brisbane and completed his PhD at Griffith University in 2010. He has exhibited widely in Australia and New Zealand, including the Biennale of Sydney, presented at numerous significant international conferences and is considered one of the leading experts in his field.

**Artist talk: Saturday, 26th February 2pm
at Woolloomgabby Art Gallery**
