The Woolloongabba Art Gallery is proud to present our annual exhibition of the Hermannsburg Potters from Central Australia. From their beginnings on a humble blue tarp in the early 1990's, the Hermannsburg Potters have developed, persisted and succeeded in producing one of the most exciting and consistent dialogues of contemporary art in Australia.

As one of the few consistent 3D artists groups in the central Australian Indigenous art movement, the potters continue to portray their respective countries with vigour and dedication, honouring the heroes of their landscapes that perch themselves on top of their pots.
