Jason Binnie is a local Brisbane artist who works in camera departments within the film and television industry and creates sculptures, paintings and photographic pieces in his studio at home. As a young man he grew up in Bundaberg with a love of nature and a talent for the creative arts, which has continued all his adult life.

Jason completed a Bachelor of Arts (Visual Arts) Queensland University of Technology in 1991, and also was the Australian Cinematographers Society Scholarship Recipient in the same year.

Whilst his occupation has seen him work around the globe, this has allowed him to find inspiration for his artworks in all areas of life. He has works on display throughout Australia, New Zealand, New York, Los Angeles, Florida, Singapore and Fiji.

The regularity of solo shows has been restricted due to family commitments over recent years, however the production of art works never ceased, with this gala showing of works being much awaited.
