A Map of the Body

by Mircha Mangiacotti

A Map of the Body

This exhibition is the outcome of a year-long collaboration between three friends: dancer / choreographer Cecilia Maza, filmmaker Mircha Mangiacotti, and visual artist Nico Iai. The images were shot in three stunning Brisbane locations: Vieille Branche, Can You Keep a Secret? and Jimmy's old bus yard, each of them quite different from the other, yet sharing a common visual narrative of vintage objects, furniture and clothes. The work explores the idea of employing the body as the canvas, with body art that is mainly improvised, quickly executed, intrinsic to the location. Nico and Cecilia's spontaneous, playful and, at times, conflictual interaction is an important and distinctive feature of the exhibition: the subjects are constantly engaged with each other and fully present in the moment, ultimately revealing something raw and personal about themselves.
