

# PASSION BEYOND MEDICINE

DOCTORS' HEALTH in  
QUEENSLAND

Inspiration and influences promoting wellbeing beyond the field of medicine

This exhibition seeks to recognise and celebrate the passions of Queensland's doctors and medical students, to promote the benefits to wellbeing of engagement in activities beyond the work environment, and to create a space to develop a community around inspiration outside of medicine.

DHQ supports the health and wellbeing of Queensland's doctors and medical students throughout their careers.

Current and former doctors and medical students are invited to submit to the exhibition.
